

# Resolutions

- We endorse the establishment of an FRIB-China Task Force
  - Produce a proposal to DOE/China funding agencies for CUSEIPEN
- We encourage U.S. and Chinese science and funding agencies to include nuclear physics opportunities related to FRIB in the US/PRC joint committee on high energy physics

The First FRIB-China Workshop on Physics of Nuclei and Hadrons

6/2/2015

May 28-30, 2015, NSCL, Michigan State University

# Resolutions

- We recommend the establishment of a prestigious postdoctoral fellowship based on the newly established government postdoctoral fellowship program in China.
  - Should have a name such as China-FRIB Postdoctoral Fellow
- We recommend that the Task Force starts planning for regular topical workshops on joint initiatives. This activity will be critical for educating our communities on the needs and opportunities.

The First FRIB-China Workshop on Physics of Nuclei and Hadrons

6/2/2015

May 28-30, 2015, NSCL, Michigan State University

# Resolutions

- We recommend that the Chinese community joins the TALENT initiative.
- We propose that the second FRIB-China workshop on Physics of Nuclei and Hadrons takes place in late 2016.

The First FRIB-China Workshop on Physics of Nuclei and Hadrons

6/2/2015

May 28-30, 2015, NSCL, Michigan State University
